

CONTENTS

Failure Analysis of Heat-Exchanger Sheets at Coke Oven 1-9

J. N. Mohapatra, Arun Kumar Panda, D. Satish Kumar

Research on the Dynamic Control Path of Procurement Costs Driven by Information Technology Tools: A Case Study of the QG Project 10-15

Kai Zhang

Enhancing the Production Efficiency of Textile Dyeing Auxiliaries Through Intelligent Retrofitting of Storage Systems: A Case Study of Leveling Agent Storage 16-21

Dongmei Shi

Development and Die-Cutting Process Optimization of High-Temperature-Resistant and Anti-Aging Barcode Substrate for Photovoltaic Modules 22-28

Quanzhen Ding

A Carbon Reduction-Oriented Synergistic Optimization Model for Manufacturing SAP Systems and Production Planning: Architectural Innovation, Algorithmic Advancement, and Global Industrial Validation 29-37

Qiang Fu

Construction and Practice of Digital Twin Operation and Maintenance Platform for Water Supply and Drainage Systems in New Energy Power Stations 38-46

Liqin Liu

Liver Transplantation: A Treatment Option for Survival in End-Stage Liver Disease 47-54

Haradhan Kumar Mohajan

CONTENTS

Design and Engineering Practice of a Visual-Voice Multimodal Collaborative Perception System for Community Security	55-65
