Call for Articles

Aims and Scope

Journal of Innovations in Medical Research (ISSN 2788-7022) is an international and comprehensive medical journal with medical and health personnel as the main readers. The journal mainly publishes the advanced experience, scientific research achievements and basic medical research closely combined with practice of medical and health personnel in clinical medicine, preventive medicine, imaging and nuclear medicine, emergency medicine, etc. *Journal of Innovations in Medical Research* aims to provide an international and interdisciplinary forum for the dissemination of research on modern medicine. JIMR publishes original research articles (both empirical and theoretical), reviews, position papers and commentaries on medical issues, to inform current research, policy and practice in all areas of common interest.

The main subject areas include, without being limited to the following:

- Anesthesiology
- Basic Medicine
- Clinical Medicine
- Epidemiology and Health Statistics
- Imaging and Nuclear Medicine
- Immunology
- Nursing
- Oncology
- Ophthalmic Specialty
- Otolaryngology
- Sports Medicine
- Surgery
