Aims and Scope

Research and Advances in Education (ISSN 2788-7057) is an international, scholarly, peer-reviewed journal addressed to researchers and various agencies interested in the studies and theoretical papers in education at any level. The journal publishes original research articles, reviews, communication, and case studies. *Research and Advances in Education* aims to relate timely high-quality research findings across a broad range of topics and provide inclusive and equitable global access to research. The journal publishes quantitative, qualitative, and mixed-method research papers. Submissions that synthesize information from disparate backgrounds, place research findings within a broad context, extend our methodological and theoretical understanding, and have the likelihood of informing education policy and practice are preferred.

The main subject areas include, without being limited to the following:

- Adult Education
- Special Education
- Curriculum and Teaching Methodology
- Educational Policy
- Education Technology
- Higher Education
- Learning and Teaching
- Pedagogies
- Pre-school Education
- Sociology of Education
- Testing and Evaluation
- Vocational and Technical Education
